

PRESENTING THE **ANITA CHIN** WHOLE-SCHOOL PRIMARY MATHEMATICS JOURNEY

ANITA CHIN

Anita Chin is a leading expert in Australian primary mathematics education. She works across Australia to transform whole schools into confident, inspired mathematics educators.

An experienced K-12 mathematics educator and contributing consultant to the NSW Mathematics K-6 Syllabus for the Australian Curriculum, Anita shares her content knowledge in ways teachers can understand and relate to, and is known for her engaging and enlightening classroom techniques.

- Be inspired by practical workshops and hands-on demos (see the kids' faces when the penny drops!)
- Learn how to differentiate number and algebra concepts for your whole class, and enrich kids' use of mathematical language
- Refresh your curriculum knowledge and take a deeper dive into the NSW Mathematics Syllabus
- Enjoy a tailored combination of instruction, demonstration lessons and online learning
- Benefit from Anita's unique K-12 view and create a seamless scope and sequence across the entire school
- Turn your team into confident, inspired mathematics educators!

TURN OVER to explore the Anita Chin Whole-School Mathematics Journey from beginning to end. It's an adventure!

All training is NESAs (formerly BOSTES) Registered PD towards maintaining Proficient Teacher Accreditation in NSW.

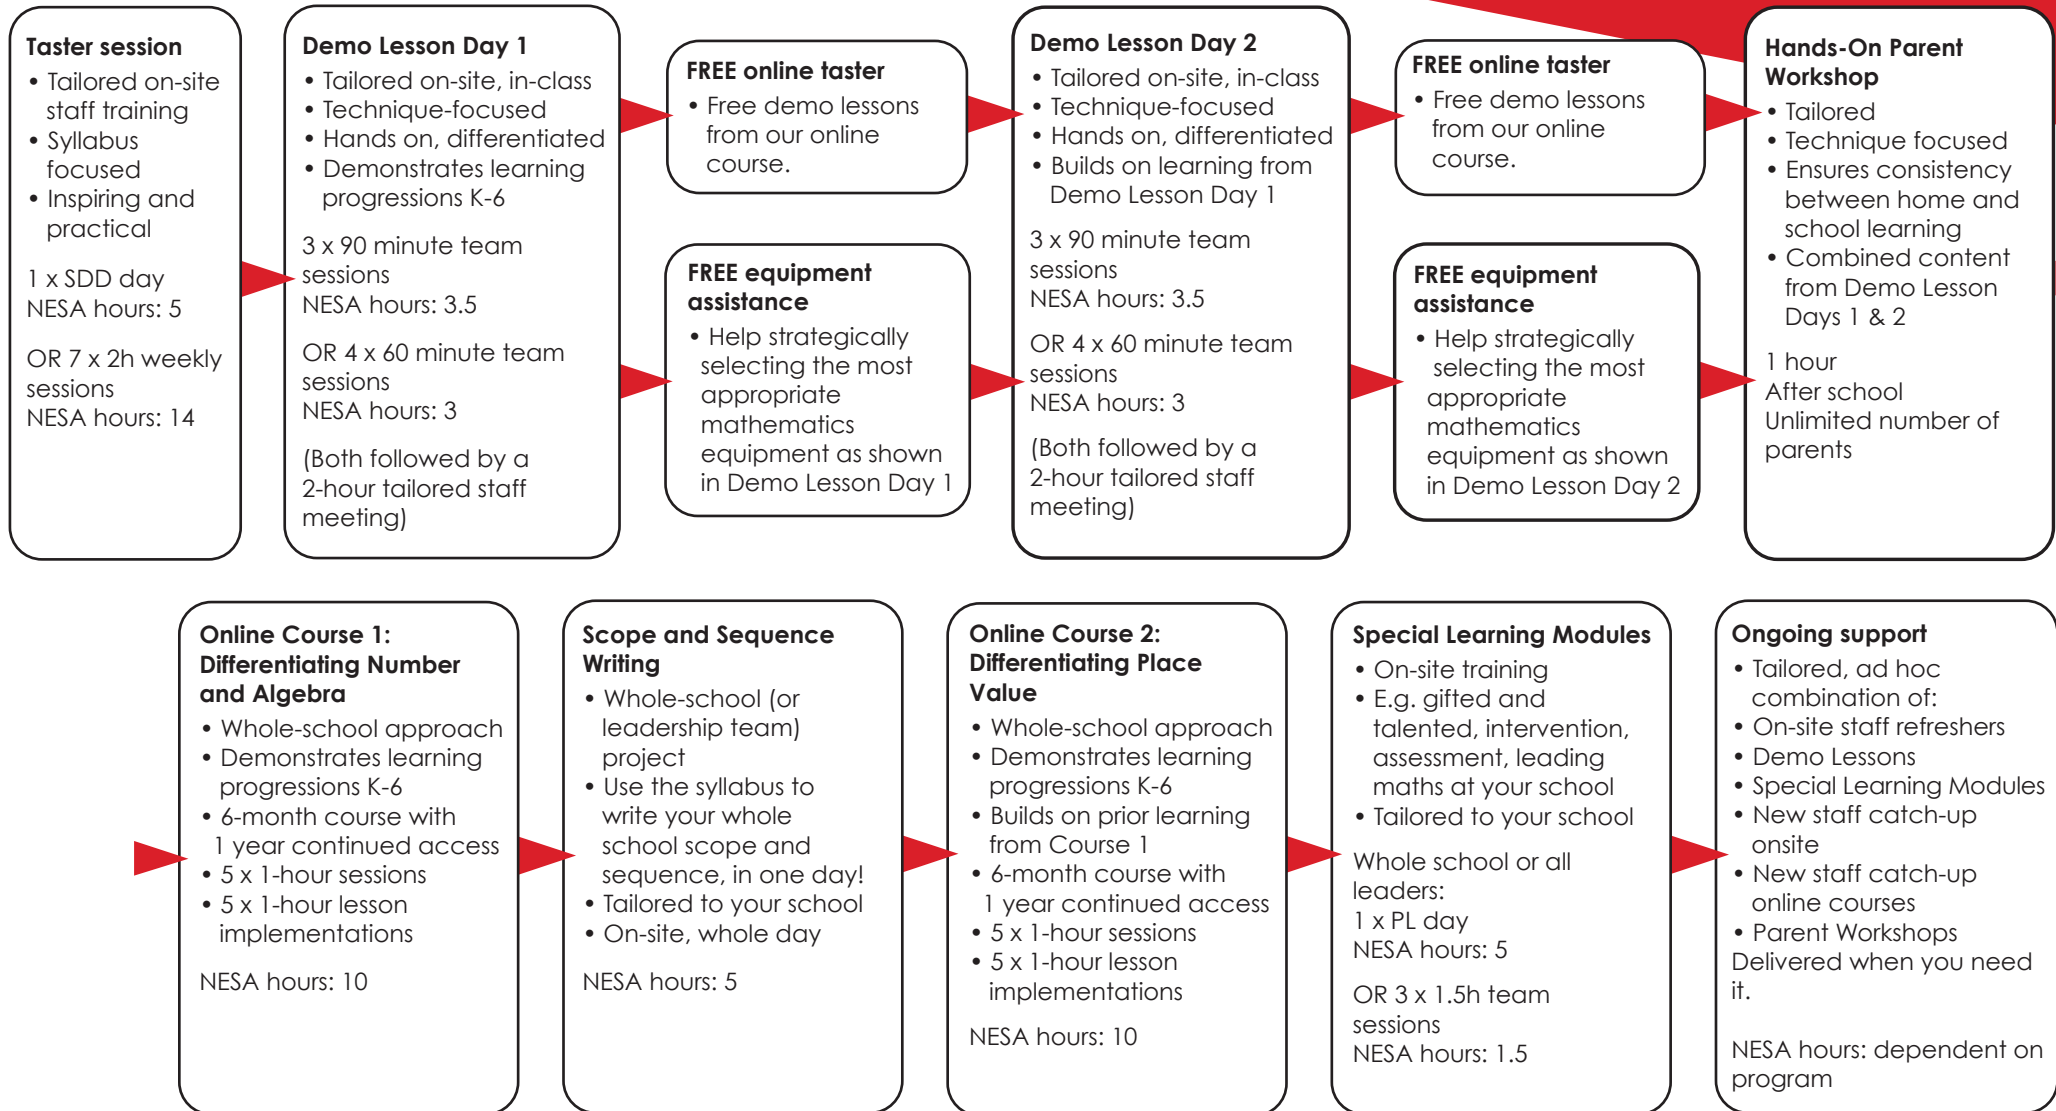

TRAINING OPTIONS INCLUDE:

- On-site tailored professional learning, including staff development days
- In-class demonstration lessons
- Contemporary, interactive online training courses
- Leadership support
- Equipment planning support
- Hands-on workshops for parents

THE ANITA CHIN WHOLE-SCHOOL PRIMARY MATHEMATICS JOURNEY

We have designed a whole-school approach to mathematics that combines hands-on learning with syllabus exploration, staff training with parent education, and face-to-face with online learning.

Giving you the opportunity to practice and revisit what you have learned, and allowing your school to reap the benefits of their training investment for years to come.
